Name:	EOL-1K/2K-I
Acenes Part:	EOL-1K/2K-I
Name Memory Aid:	End Of Line resistor kit
Wires:	Four 22AWG Wires (FT1 rating)
Wire Color:	2 Black and 2 Blue
Include 1K/1K:	Yes
Loop Type:	Closed, Open, Open & Closed
Number of devices per package:	10
Certification:	RoHS
Specifications:	RoHS

Description:

EOL-1K1K-I consists of two in-line mini PCB-mounted 1K, 5% accuracy resistors. that are protected from environmental factors such as dust and humidity.

Features:

- 1k/2k provides four traditional states: Open circuit, short circuit, normal state and active state
- Enhanced installation flexibility
- Protection against installation errors
- Protection against tampering / shortening of exposed wires

Applications:

- Interfaces to any security system requiring 1k/2k supervision
- Industrial Monitoring Applications
